

INJUNCTION FORBIDS STRIKE OF MINE WORKERS TOMORROW

FEDERAL COURT AT INDIANAPOLIS DIRECTS
U. M. W. A. OFFICIALS TO WITHDRAW ORDERS
FOR WALKOUT OF MEN IN BITUMINOUS FIELD

Right of Government to Protect Its People
From Disaster and to Enforce Its Laws
Upheld by Judge Anderson; Makes It
Clear Case Does Not Involve General
Rights of Workmen to Organize or Quit
Work.

FORMAL HEARING IS SET FOR NOVEMBER 8

INDIANAPOLIS, Oct. 31.—A temporary injunction restraining all strike activities of the United Mine Workers of America was issued in the federal district court here today on application of the United States government. Judge A. B. Anderson signed the order on the showing set forth by C. M. Ames, assistant attorney general, that a national disaster was impending and on the broad general grounds that the government has the right to enforce its laws and protect its people from calamity.

The order was directed against Frank G. Hayes, the incapacitated president of the union; John L. Lewis, acting president; William Green, secretary-treasurer, and all other officials of the organization. It took effect when served and will continue in force until after the formal hearing which Judge Anderson set for November 8.

In presenting the petition Judge Ames made it clear that the case will not involve the general rights of workmen to organize or quit work. He said it would have no bearing on other industries and merely involves the right of labor during the war to restrict or destroy the supply of food and fuel.

"It rests," he added, "on the broad general powers of the government to enforce its laws and to protect its people against disaster."

Under the order the union officials are commanded to withdraw strike orders already issued and are forbidden to send out any other orders, written or oral, to promote the strike or in any way make it effective. They are restrained from sending "any messages of encouragement or exhortation" or from disbursing any union funds from strike benefits.

FARRINGTON TAKES DEFIANT ATTITUDE.
SPRINGFIELD, Ill., Oct. 31.—Assuming a defiant attitude toward the government move to stop by injunction the threatened strike of soft-coal miners, Frank Farrington, chairman of the miners' scale committee and president of the Illinois district, declared today the strike had developed into something more than a miners' strike and that it was an attempt to enslave the workmen and women of the country. "I don't believe there is any power on earth that can stop the miners from going on strike tonight," Farrington said. "The action if the government will only inflame them. The question involved now is whether working men and women have the right to strike when they think they have cause to do so."

FEDERATION OFFICIALS MAKE
PROTEST TO PALMER.
WASHINGTON, Oct. 31.—Officials of the American Federation of Labor protested to Attorney General Palmer today against the action of the government in obtaining an injunction in the coal strike.

The federation officials declared the injunction violated the rights of union labor and indicated that the coal miners would have their support in any fight brought to dissolve the injunction. Mr. Palmer reiterated that the government was proceeding solely against one union, which he declared was trying to violate the law. He said the right to strike was not involved.

Samuel Gompers, president of the federation, did not accompany the delegation, but an engagement was made for him to see the attorney general later in the day.

It is understood that there will be no change in the policy of the government as a result of the representation by the union men.

CLAIMS ITS BEYOND ALL
POWER TO STOP WALKOUT.
SPRINGFIELD, Ill., Oct. 31.—Determination of the nation's soft-coal mine to strike has reached a point where it is beyond the power of any one to prevent the cessation of work at midnight tonight, according to Frank Farrington, chairman of the miners' international scale committee. Farrington made no other comment concerning the issuance of the injunction against the strike at Indianapolis this morning.

PREPARATIONS FOR STRIKE
CONTINUE, SAY PRESIDENTS.
PITTSBURGH, Oct. 31.—Injunction proceedings in Indianapolis will make no change in the strike situation in Western Pennsylvania, officials of District No. 5, United Mine Workers of America, said this afternoon. "Our preparations are going right along and the men will quit as scheduled," was the word which came from the office of President Philip Murray.

CHARLESTON, W. VA., Oct. 31.—It is now too late to recall the bituminous coal strike order, in the opinion of President Frank Kenney of District 7. He said when told of the Indianapolis injunction that he had nothing to say officially other than that it would be impossible to prevent the men from going out.

MU MINERS' HEAD SAYS
IT'S TOO LATE FOR ACTION.

LEWIS' CLAIM

Calls Injunction Sweeping Abrogation of Rights of Citizens.

By Associated Press.
INDIANAPOLIS, Oct. 31.—A temporary injunction obtained here today by the government cannot avert the strike of soft-coal miners set for midnight tonight, according to John L. Lewis, acting president of the United Mine Workers. Lewis' pronouncement came shortly after he had been served with a writ stopping strike activities at union headquarters here. Lewis dictated the following statement:

"I regard the issuance of this injunction as the most sweeping abrogation of the rights of citizens guaranteed under the constitution and defying by statutory law that ever has been issued by any federal court. This instrument will not avert the strike of bituminous mine workers and will not settle the strike after it occurs. The injunction only complicates to a further degree the problems involved in an adjustment of the controversy."

Fire Raging In Y. & O. Mine and Is 'Possible Victims' Bodies May Never Be Found.

By Associated Press.
AMSTERDAM, Oct. 31.—Fire continued to rage in Mine No. 2 of the Y. & O. Coal company here today with no word from the 21 entombed miners, for whom all hope has been lost. Mine Superintendent Richard Jones stated today he held no hopes for any of the men being found alive and that the intensity of the fire was so great it was doubtful if the bodies would ever be found. The fire is still raging in the main entrance to the mine and rescuers have been unable to go into Entry No. 15 from which they were driven out by fire yesterday.

Members of the mine rescue crew from Pittsburgh are still at the scene, but they have been unable to go very far into the mine because of the flames. An effort will be made today to go back into the mine through Entry No. 14 with a possible chance of cutting through to the men at the end of Entry No. 15. The rescue crew today formed parties of miners 35 to the group which will start into the mine in an effort to clear Entry No. 14. A large pipe line is now being run into the mine to which fire hose will be attached.

Comrades of the entombed men are working at the bottom of the elevator in shifts, many saying till they fall from exhaustion and gas fumes.

VERDICT OF \$2,678.25

Damages Awarded By Jury for Injuries to Boy Run Down By Truck.

A verdict of \$2,678.25 was returned by a jury at Uniontown this morning in the case in which W. O. Sullivan, of Connellsville township, on behalf of his son Edward, sued the firm of Kennell and Kell for damages because of injuries received by the boy when run down by a coal truck operated by the defendants.

The jury awarded \$2,000 to the boy for his injuries and \$678.25 to the father for doctor's fees and expenses. The firm of Kennell and Kell was composed of Alfred Kell, who died during the war, and Cyrus Kennell of Connellsville, now residing in the West. They operated a coal mine at Poplar Grove. The boy was run down along the Swagertown road.

PETTY THEFTS AT
FREIGHT STATION

Four Employes of B. & O. Apprehended, Warrant Out for Fifth; 20 More Planned.

A crusade by Captain R. C. Bledsoe of the Baltimore & Ohio police force to break up alleged petty larceny of merchandise in transit resulted in the arrest yesterday and this morning of four employes at the Connellsville freight station while a warrant was out for a fifth and at least 20 more arrests are planned, according to Captain Bledsoe. Four were arraigned before Alderman Fred Munk during the forenoon and released on payment of the costs, after they had been closely questioned. Constable L. I. Gresham had the warrant for the fifth. The others had not been issued.

The four arraigned today were John J. Frank, John Houle, G. L. Chapman and Jerry Schuster. A warrant was out for T. J. Reynolds.

More petty larcenies are traceable to the Connellsville freight station than all others on the Connellsville division. Captain Bledsoe testified at the hearing. The losses during the past five months, he said, have been \$200 to \$300 monthly. This is chargeable, he said, to small quantities of articles taken from damaged cases of goods—candy, cakes, cigars, etc. Sometimes a pair of shoes is missing. Mostly, however, the losses are said to be on articles of lesser value.

The men arrested and against whom charges of larceny and receiving stolen goods were entered are truckers and checkers. It is charged that after a trucker will intentionally ram a truck against a car, known to contain candy or cakes, breaking it so that the contents are exposed. Later he will help himself to some or eat. Others do the same, it is charged, and in the aggregate these losses, trivial individually, become considerable.

Many of the losses the captain said, are probably never reported. Others are so large that the consignee files a claim.

One of the men arraigned this morning pleaded guilty to the charge. Two of the others, admitted having merchandise but said they did not take it. One who was charged with having three sticks of candy, said he found it between the cars. Another admitted receiving a package of tobacco from a fellow worker but said he did not know it had been taken from a shipment. He admitted, however, his suspicions were excited when the man gave him a whole package.

The arrest of the four men and the information said to inspire many others was secured by placing watchers in the cars and freight house.

The weather man and the public have in their hands the success or failure of the formal celebration of Halloween tonight. The committees of the New Haven Hose company have done their part toward making it the best in the history of the city. Undoubtedly there will be hundreds, perhaps thousands, of mummies out. What the committees want is as many as possible of the costumed celebrants to join the procession—no leave it all up to the school children and a few others.

The intention is to have the parade move from the South Side at 7:30

"PURGING" OUT-RUTHLESSING
THE RUTHLESSNESS OF HUNS.
ONE "INFORMATION" DRAWN.

Publishing in its entirety what purports to be a "Copy of Information in Election Frauds" charging Roy Mayo with having "falsely and fraudulently registered," the organ of the Phantom Chasers-in-Chief seeks to convey the impression that the pursuit of the phantoms is progressing with a ruthlessness which makes the German interpretation of that term seem mild and innocuous.

Care is taken, it will be noticed, that no revelation is made that a warrant has been issued upon the information which is set forth with painstaking attention to all the details necessary to make a model legal document. Neither is the public taken into the confidence of the Inner Council of Phantom Chasers and advised as to the names of the aidmen at justice of the peace by whom warrants have been sworn out for the arrest of any of the 25 phantoms reported to be lurking in the secret underground chambers and other spooky places of the First Ward.

Yesterday the warrants were reported to be "ready" and the assurance was given an expectant, impatient and highly-tensed public that they were to be placed "in the hands of officers this (yesterday) morning." Up to noon today inquiry revealed the fact that no aidmen of the city had issued any such warrants. Constable Rottler had been "armed" with copies of the Mayo information, but this experienced officer knows that this carefully drawn document does not alone give him authority to apprehend upon view either the most desperate or the most elusive phantom that may have made the First Ward his ethereal dwelling place.

Another fact strangely overlooked by the untiring purgers in their "careful survey" is that Roy Mayo, a colored citizen, has lived in the First Ward for 12 or 15 years. He is now employed at Davidson pump as a shaft man and has followed for several years.

In the somewhat doubtful contingency that the drag-net of the chasers will land a sure-enough phantom arrangements have been made to provide such protection as may be necessary to guarantee him his rights under the law.

Placed in Institution; Other Work.

The initial work of Mrs. Louise M. Reynolds as representative of the home service department of the Connellsville branch of the Red Cross was laid before the executive committee at a meeting Thursday afternoon at the Red Cross headquarters in the Frances Cameron school building, the report covering the period from September 22 to October 30.

During this time, according to the report, Mrs. Reynolds visited 36 families, embracing 134 persons, making in all 122 visits of which 77 were to families and 55 in behalf of families and of which 16 were to points out of town. Much work was accomplished in the five-week period. In her work Mrs. Reynolds was materially assisted by the medical profession of the city, members of which gave their services free of charge when needed. Motor car service also was placed at the disposal, free of charge, of the representative in the case of persons taken to institutions in Pittsburgh for care and treatment.

Of particular interest were steps taken by Mrs. Reynolds, in conjunction with the executive committee, to have a young woman of the community who has been deaf and dumb since infancy placed in an institution where she may receive training that will enable her to communicate with others. The woman is now 28 years old. She has absolutely no means of intelligent communication. Members of the family have married and died until she and her mother alone are left; at home Mrs. Reynolds has been in correspondence with an institution in which it is expected she will be placed to learn the sign language. The activities of the "visitor," as she is styled, were various as is shown by the following report of help and investigation submitted to the executive committee:

Families visited, representing 134 people; 132 visits made, 17 visits to families, 55 visits in behalf of families, 15 visits out of town; Pittsburgh 7, Pennsylvania 6, Lawrence 2, Indiana 1, Dunbar 1, Poplar Grove 1, Meyer 1.

Cabbage Crop at Meyer Damaged,
Pennsylvanians Suffer, Destroyers
Busy in Connellsville, Too.

Despite the efforts at entertainment of the young folks that have been made for several years at Halloween time, the element that finds vent to its abnormal enthusiasm by destroying property continues to operate. An example of this is found in the attempt at destruction of several wagon loads of cabbage at Meyer, according to reports from that place. The cabbage was pulled from a field on the former H. W. Detweiler farm and tossed into the public road. Some of it was recovered, the remainder was a loss.

Last night at Pennsylvanians were a public watering trough in front of the residence of W. E. Mier and loaded it onto a wagon which had been stolen from some other farm and pulled to the place.

In Connellsville depredations also were reported. In the Pennsylvanians section fence have been torn down and stone walls damaged. All this is done in sections that are in darkness or semi-darkness where the perpetrators feel they are safe from detection.

Mayor John Duggan this morning sentenced William McFarland of Brookvale to 30 days in jail for a disorderly conduct of the Halloween order in Twelfth street, West Side. He then suspended sentence, with a good behavior proviso. It was charged McFarland carried stones against doors. He denied this and said it was cabbage roots. He was arrested at 9 o'clock by Patrolman Andrew Thomas. Several rocks were reported to the police as having been carried away from the home of Thomas Neale, Race street.

The Leislering band participated in the Halloween parade at Mount Pleasant last night. It is thought to go to Scotland to take part in the celebration there.

HIGH SCHOOL READY

Tram Has Worked Hard to Get Ready for Scouting Game.
The high school football team has finished its busy work in preparation for tomorrow's game with Scotland and the afternoon indulged in light work only rehearsing the fundamental details of the formations, both offense and defense, which they expect to use tomorrow. Last night's practice was a strenuous one, continuing on to field until dark, and then a blackboard session was held in which the coach reviewed many of the things that the team has been taught during the last 10 days.

All the boys are in the best physical condition prepared for a long, hard game and while no predictions are being made there is an air of optimism among the members of the team as well as its supporters. Coach Folk has said nothing about the lineup of Saturday's game, but from the way the boys have been used in the scrimmages of the week, the following lineup looks like a pretty good guess: Left end, McInnis, left tackle, Turner, left guard, Tomaska, center, Van, right guard, Ozinsky, right tackle, Mountain, right end, Menefee, Capri, quarterback, Bufano, left half, Francis, right half, Whippley, full back, Danney.

The referee will be Edward C. Craemer, Franklin-Marshall college, and the umpire's post will be taken care of by Dr. Rose Faghtner, University of Pittsburgh. The game will be called at 2:30 o'clock and will be attended by several hundred from Connelville.

The biggest student representation ever leaving Connelville is expected to attend the game and the local students are planning to carry off honors in the cheering duty. Cheer practice was held this morning. The West Penn will run special cars at 1:30 o'clock to accommodate the crowd.

The observance will be in the form of a chicken and waffle and oyster supper which will be served in the Eagles' hall in West Crawford avenue immediately following the parade. All who accept the invitation to the feast are asked to come masked. Prizes will be awarded the best dressed Eagle and the best dressed wife, mother, sister or sweetheart of an Eagle.

There will be an abundance of things to eat as may be judged from the statement of J. W. STOMACH TROUBLES ARE DUE TO ACIDITY

Tells Safe, Certain, Speedy Relief for Acid Indigestion.

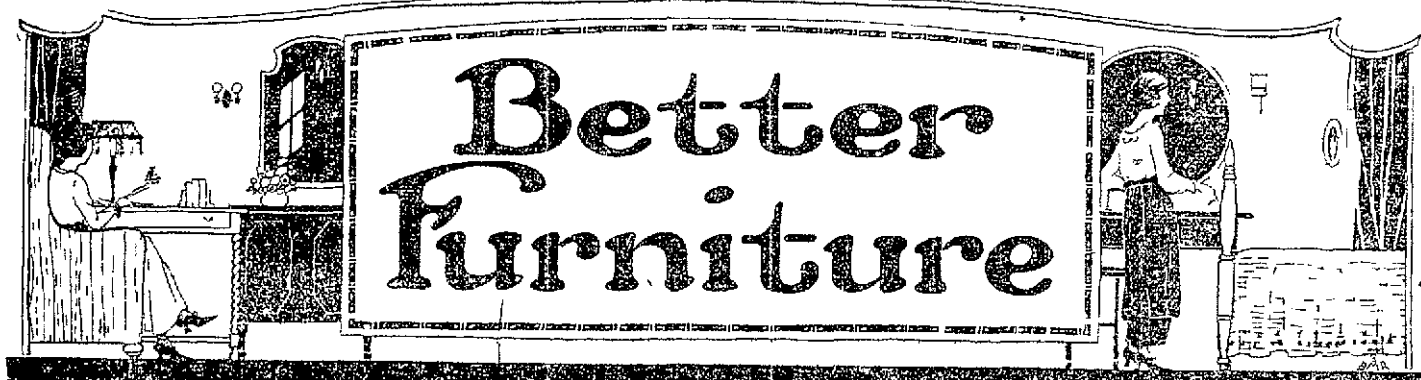

So-called stomach troubles such as indigestion, gas, sourness, stomachache and inability to retain food are in probably nine cases out of ten simply evidence that excessive secretion of acid is taking place in the stomach, causing the formation of gas and acid indigestion.

Gas distends the stomach and causes that full oppressive burning feeling sometimes known as heart burn, which he acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the excessive development or secretion of acid.

To stop or prevent this excessive secretion of acid, the contents of the stomach and to eat a little acid and make it bland and harmless a teaspoonful of bisulphate of magnesium, a good and effective corrector of acid stomach—should be taken in a quarter of a glass of hot or cold water after eating or whenever sourness or acidity is felt. This restores the stomach and neutralizes the acidity in a few moments and is perfectly harmless and inexpensive remedy to use.

An antidote such as that of a weak acid which can be obtained from any druggist in either box or tablet form enables a person to do his work properly without the aid of artificial stimulants. Nature's corrector in several forms so be certain to ask for the take only Bisulphate of Magnesium. It can be especially prepared for this purpose—Adv.

FRIDAY EVENING, OCT. 31, 1919

AN INDUSTRIAL TRAGEDY WILL NOT BE FORGOTTEN.

It is becoming necessary for the govern-
ment to "sort out" the measures of
war time in order to meet the conditions
that will arise from a strike of the
coal miners. The public is not likely
to bear the situation with the same
degree of patience and equanimity
shown during the war. Then there
was reasonable cause for the exercise
of extraordinary powers by the
government such as establishing the
maximum price, compulsory curtailment
of consumption and other re-
strictive and regulatory measures.
These were applied in order that the
business of winning the war might go
ahead without let up or hindrance. A
necessary purpose was to be served
and the people patiently and in the
main cheerfully accepted the unusual
situation.

Now all of these elements are lack-
ing. In place of them there is nothing
but the inertia of men and of a
single class or group at that, and only
a very small percentage of the whole
population, as the prime cause which
may compel us to war time measures
in time of peace. No motive or
spirit of patriotism will prompt peo-
ple to give ready or willing acceptance
to the consequent annoyances and
inconveniences and losses. There will
be no if any disposition on part of
the general public to accept the exer-
cise of power by the federal govern-
ment but there will be a universal
and very pronounced feeling that
the public is being made the innocent
victim of a high backed, unjustifiable
and indefensible proceeding upon the
part of the mine organization.

The mine has been afforded
every reasonable opportunity to have
its demands for increased wages ad-
justed upon an equitable basis fair
to both parties to the controversy and
to the public. Having been appealed
to in the interests of the well being
of millions of people but without
avail it is not surprising that their ex-
ecutive have very curtly declined to
accede to the President's demands that
the strike be called off.

Having assumed the attitude of open
defiance to authority and declaring
their entire will against that the in-
dustries of the country shall be
brought to a standstill and the win-
ter supply of fuel for householders
throughout the country and prevented from
reaching the consumers, whatever
sympathy the public may have had
for the cause of the miners has been
lost. Their strike if it takes place
will fail for the if for no other rea-
son. But it will fail for the more ma-
terial reason, that the government
does not intend that any body of men,
even in the cause of labor or capital,
shall set itself up as superior to con-
stitutional authority, to defy or ignore it
at will. Public interest has never yet
been subordinated to private or in-
dividual advantage, to gain which an
industry, tragedy has to be commit-
ted and this will not now be per-
mitted.

IS NEW FREEDOM CENTRAL COMMITTEE REPUTING HALF ITS COUNTY TICKETS?

In a pamphlet prepared for the Demo-
cratic Central Committee of Fayette
county and now being sent to
Democratic and independent
Republicans only, there is presented
rather strong evidence that the New
Freedom leaders have a desire to re-
putate one half of their county
tickets if they have not already done
so.

Enumerating the offices which will
require 13 men to fill voters are in-
formed that the mission of this docu-
ment is to tell you the men who are
candidates for these offices on both
the Democratic and Republican tickets
what each of these men stands for
and what the election of any of
them will mean to you as a citizen and
taxpayer of the county.

Then with an impartiality and
fairness purely characteristic of New
Freedomism when pleading its waning
cause the pamphlet proceeds to laud
extol and magnify the virtues, execu-
tive ability, family relations, social
standing, scholarly attainments and
numerous other qualifications of the
Democratic candidates for register of
wills, sheriff, county treasurer, prob-
ationary clerk of court recorder of
deeds and judge of peace and no more
a further proof of the authors dis-
interestedness as friend and guide of voters
Republican candidates for these
offices are ridiculed, condemned
and damned with a choice collection
of words and phrases to be found only
in New Freedom dictionaries or the
columns of their personally owned
and conducted organs.

One rare exception among these complimentary paragraphs is that relating to "Zeke" Shaw, Republican candidate for sheriff. Slanderingly omit- ting all reference to his upright char- acter as a man and his splendid record as a soldier, just a line is given to inform the voters that he is a resident of Uniontown.

This intentional omission is per-
haps less deserving of notice when
the source and purpose of this extra-
ordinary document is considered than
the still more significant fact that this
"Infallible Voters' Guide" makes abso-
lutely no mention of six other candi-
dates on the Democratic ticket to fill
the offices of district attorney, county
controller, county commissioner
coroner and county surveyor.

To Democrats and independent
Republicans to whom particular ap-
peal is made by this volume of cam-
paign information there is but one
conclusion to be drawn from a study
of it. In their minds, there has
arisen the very strong suspicion that
"Charlie" Frank, "Bill" McCormick,
John L. Robinson, Searight Marshall,
Dr. Plunka and Bill McCoy have been
reputed by the high priests of
New Freedom without the ceremony
of public excommunication.

If this has not been done, the in-
quiry arises why should so im-
portant an official document intended
to instruct voters how to mark up
their ballots to vote intelligently and
correctly specifically and in the
highest and most extravagant terms
of praise mention of Jesse Swanev,
George Hoover, Shell Lehart, Herb
Duggan, Ed. T. J. Harry, Burd and
Charles Hostetler as only seven out
of 13 Democratic candidates who will
have a high appreciation of the duties
of their office and will discharge them
in the interests of the taxpayers.

NEW PHYSICAL DIRECTOR

Syracuse Basketball Star Comes to
High School

Nathaniel Malefki of Brooklyn
N. Y. has been chosen as the new di-
rector of physical training for boys at
the Conneltsville high school and will
be on the job Monday morning. He suc-
ceeds F. A. Bode resigned.

Mr. Malefki was recently dis-
charged from the Army, having held
the post of athletic director at Kelly
Field, San Antonio, Tex. in charge of
all athletic activities there with the
rank of lieutenant. He is a graduate
of Syracuse University and while at
that school made the varsity basket-
ball team, playing a star game at cen-
ter. Later he played with the New
York City soccer football champions
and on the Rochester International
league baseball team.

He was put in charge of the calis-
thenics or setting up exercises at
Kelly Field when he entered the Army
and soon was put at the head of all
the athletics. San Antonio papers ac-
corded him much praise and great
things are expected of him here.

Mr. Malefki is 27 years old. He will
have charge of the boys' gym work
and will coach the basketball team.

Dance at Dawson.

One of the most enjoyable of the
Halloween social functions at Daw-
son was a masquerade dance held in
Cochran banquet hall by the Pequot
club. A large number of guests in-
cluding many from out of town
points attended. Never did the large
hall present a more attractive scene.
The decorations in keeping with
Halloween were unusually beau-
tiful. Autumn leaves, pumpkins, corn-
cobs, Japanese lanterns and many
colored balloons being used. The
costumes worn by the guests were
unique and varied. Dancing was in
vigor until 12 o'clock and a general
good time was had. A buffet lunch
was served. Music was furnished
by Kiefer's orchestra. Among the
out of town guests were Mr. and Mrs.
Basil Solismon and Mrs. George
Cochran, Misses Gertrude and Anna
Solismon, Miss Anne Donnelly, Paul
Shaw and Harry Percy, all of Con-
neltsville.

WISDOM TAKERS.

I make no great claim to a measure
of fame.
I never have studied in college.
I'm not one to boast as I stand at my
post.
That I have a surplus of knowledge
I can't train my eyes to look that I
wise.
When the talkfest is wholly above
me.
I can't make the bluff that I've studied
hard.
For the sake of what others think
of me.
When they say you have read a
book.
And in manner superior quote it.
I don't answer yes but I freely
confess.
That I never knew Solomon wrote it.

When some orator tall says you'll
surely recall
Those marvelous words from Old
Solomon.
If to me the stuff's new I don't say
that I do.
I admit that I do not recall em.
Should you mention a book not by
word or by look.
Will I lead to think I have read it
I'll say off the top. No I haven't seen
it.
Though it lowers my standing and
credit.
Though unclear I am I will not play
the shams.
And I dare care how others may
take it.
Wisdom comes to possess but I venture
the guess
There are too many fellows who
fake it.

TURN AWAY FROM THE SCHEMING "COMPLIMENTARY" VOTE BEGGAR. HE WOULD MAKE A FOOL OF YOU.

The most inexperienced Republican voter knows that to comply
with the request of a Democrat to give a "complimentary" vote to
one or more candidates on the Democratic ticket does not advance the
interests of the Republican party. Least of all does it aid the partic-
ular candidate or candidates who are opponents of the Democrats
for whom the favor is solicited. Yielding to such entreaty means
but one thing. The Republican candidate's chance of success is re-
duced and that of the Democratic candidate increased by every such
vote cast.

This method of electing Democrats through playing upon the
sympathies good nature or neighborliness of Republicans or by
creating in them the feeling that they are under some sort of obli-
gation either to the Democratic candidate or his pandering son
and friend has become part of the stock in trade of New Freedom
Democrats. There being very many more Republicans than Demo-
crats in Fayette county, the Democrats begin early and work late
upon their schemes for raiding the Republican camp. In the present
campaign this activity is more persistent than ever before and is
dangerous to Republican party success because of the many in-
sidious devices and deceptions that are being practiced to induce Repub-
licans to split their ticket.

When tempted Republicans must bear in mind that the
only use a Democrat can of their complimentary vote is to aid in the
election of himself or another Democrat. Yet are not respect ed
neither is the Democrat afterward grateful to you for having yielded
to his persuasion.

Remember too that the Republican party in Fayette or the na-
tion owes absolutely nothing to the Democratic party. Instead that
party needs to lament in sackcloth and ashes and make so lament
that it will never again seek to inflict upon a patient and trusting
people another such mal-administration or national affairs as now
weighs us down in despair.

Remember too that for every candidate on the Democratic
ticket there is one on the Republican ticket who is as well or better
qualified and all are more deserving of your suffrage.

Finally when in unctious urbane and dissembling barefoot
approaches you begging that you give S and S a complimentary
vote for any of the 17 varieties of reasons the fertility of his imagina-
tion may conjure up or the emergency of his "zeal" may suggest
"from such turn away. For of this sort are they which creep in o
houses and lead captive silly women, and foolish coniding men who
would throw their votes away.

BIG CROWDS OUT IN MT. PLEASANT FOR HALLOWE'EN

Outside Persons, However,
Spoil the Celebration by
Their Rowdiness.

MRS. LINDSAY BURIED HERE

Victim of Gasoline Explosion at
Johnstown Laid to Rest in Mount
Pleasant Cemetery; Kenneth Wilson
Is Typhoid Fever Victim; Notes.

Special to The Courier
MT PLEASANT Oct. 31.—One of
the largest crowds in the history of
the town gathered here last evening
for the Halloween celebration. The
parade formed shortly after 8 o'clock
and moved over the principal streets.
Despite the police protection given
the crowds by having the members
of the fire department serve there was
a great amount of rowdiness on the
streets by persons coming into town
and taking advantage of the crowds
and pickpockets were busy during the
entire evening. The dance held in
the Armory after the parade was quite
a success.

Turned By Gasoline.
The body of Mrs. George Lindsay,
a former resident of this place and
who now lives near Johnstown, was
brought here for burial yesterday
morning. Mrs. Lindsay was with her
husband and family had been out in
an automobile and the gasoline gave out.
Mr. Lindsay used a lantern to see
while filling the tank. Fortunately
Mrs. Lindsay had gotten the children
a safe distance from the car but she
was unable to get away when the
gasoline ignited. Mr. Lindsay was
frightfully burned but despite this
fact rushed her to the Johnstown hos-
pital where she died Tuesday morn-
ing.

Kenneth Wilson.
Kenneth one of the younger sons of
Mr. and Mrs. Royal Wilson of Spring
street, died at his home here Wed-
nesday evening at 8 o'clock from
typhoid fever. Funeral services will
be held today and interment will be
made in the Mt. Pleasant cemetery.
Greensburg Wins.
The Greensburg Duckpin team de-
feated Mt. Pleasant by 269 pins.

SAYS HER FRIEND HAD BEEN CURED BY PLANT JUICE

Mrs. C. M. Wise of No. 132 39th St.
Tells How She Came to Try
Plant Juice.

intestinal poisoning, rheumatism, liver
and kidney trouble and many other
distressing ailments. Plant Juice
the famous stomach remedy is inval-
uable in aiding such cases and every
day statements are being received
from local people telling of the great
benefits they have derived from the
use of Plant Juice.

Mrs. C. M. Wise who lives at No.
132 Thirty-ninth street and is one of
the best known women in Pittsburg
having lived here for the past 33
years said:

For four years I had been troubled
with my stomach and could not keep
any solid food in it as it would fer-
ment and cause gas to form. I suffer-
ed again after eating any thing and
dreaded to sit down to the table. My
kidneys were also badly affected and
I had terrible pains across my back
and in my side. I had head aches
and dizzy spells due to a deranged liver
and I had pains all through my body.
I could not sleep. I felt in such a ner-
vous condition and had taken all kind
of medicines and treatments without
any benefit. A friend of mine who
had been cured of stomach trouble by
Plant Juice begged me to try it. I
now have taken several bottles and
am feeling fine. My stomach is in good
condition and I can eat anything
sleep well and have no more trouble
with my liver or kidneys. Plant Juice
is a fine medicine and I am glad to
recommend it.

Plant Juice is sold in Connellsville
at Roy Heitzel Drug Store and the
Connellsville Drug Co.—Adv.

DARKEN GRAY HAIR, LOOK YOUNG, PRETTY

Sage Tea and Sulphur Darkens So
Naturally That Nobody
Can Tell.

Hair that loses its color and lustre
or when it fades turns gray, dull and
lifeless is caused by a lack of sulphur
in the hair. Our grandmothers made
up a mix ure of Sage Tea and Sulphur
to keep her locks dark and beautiful
and thousands of women and men who
value their color and that beautiful
dark shade of hair which is so at-
tractive use only this old time recipe.

Nowadays we get this famous mix-
ture improved by the addition of other
ingredients by asking at any drug
store for a bottle of Wetch's Sage
and Sulphur Compound which dark-
ens the hair so naturally so easily
that nobody can possibly tell it has
been applied. You just dampen a
sponge or soft brush with it and draw
this through your hair taking one
small strand at a time. By morning
the gray hair disappears but it will
delight the ladies with Wetch's Sage
and Sulphur Compound is that be-
comes beautifully darkening the hair
after a few applications it is a soft
back the gloss and lustre and gives it
an appearance of abundance.—Adv.

Has He Found a Cure for Asthma?

Simple Prescription Gives Instant
Relief. Makes Breathing Easy.

In New England where Bronchial
Asthma is prevalent and one of the
most distressing ailments, the re-
sults are being reported following the use of
a new form of treatment known as
Oxizone, a physician's prescription.
Oxizone is a harmless but powerful
combination of curative essential oil
concentrated and compressed into
small tablets. One of these tablets dis-
solved before going to bed seems
to have the effect of relieving the mus-
cular contraction of the bronchial
tubes opening up the air passages and
relieving spasmodic lung action. The
result is the patient to breathe easily
and naturally while lying down and to
get a comfortable night's sleep.

So much interest has been shown
that local druggists shoulding a V. A.
Clarke have secured a small supply and
state that they are authorized to re-
fund the money paid for the first pack-
age if in any case his new treatment
fails to give relief. Oxizone is pre-
sented to take contains no harmful habit
forming drugs and is not expensive.
This makes their test an easy matter

Asserts New Discovery Brings Blessed Relief To Rose and Hay Fever Sufferers

Can Make It Yourself At Home At Trifling Expense

In spite of all the doctors and
scoffers a man in Kentucky, who
changed his annoying and distressing
hay fever into less than a mild cold
claims most emphatically that if taken
in time hay fever can be conquered or
at least made so harmless that it is
not even bothersome.

He gave his discovery to scores of
other sufferers with the most remark-
able results and has recently been pre-
sented to dispense it through
pharmacists to all hay fever sufferers
who at it have faith that nature has
provided an effective remedy for this
common yet miserable disease.

And best of all this remedy costs at
most nothing. Get one ounce bottle
of Vetholized Aiders at a drug
store pour the contents into a pint
bottle and fill the pint bottle with
water that has been boiled.

Then gargle as directed and twice
daily sniff or spray each nostril
thoroughly.

That's all there is to it so simple
that a lot of people will say that it
can't do the work but oftentimes sim-
ple natural remedies are the best as
you will find after using.

If you will mix up a pint and use
it for a week or ten days you need not
be surprised if you never welcome your
visitor fails to appear.

PATRONIZE THOSE WHO ADVERTISE

Sunday School Notes

Rev. A. F. Hanes, county young people's division superintendent, has issued a call for a meeting of the district young people's superintendents, together with the officers of the older boys' and girls' conferences, for 7:30 o'clock evening, November 7, at 7:30 o'clock in the office of the Sunday School association, No. 7 Court street, Uniontown. This will be an interesting as well as important meeting, as the young people who were at the conference at Wilkes-Barre will be present to tell of the wonderful things that took place there; while an intensive program for the work of the young people's division will be discussed and formulated at this time.

Preparations are going forward for the observance of the annual father and son celebration by the churches and Sunday schools throughout the county. This consists of special services by the pastors on Sunday, November 15, to fathers and sons at the church services; while in the Sunday school it consists in celebrating a boys' day, similar to the children's day celebration; and on the following Tuesday evening a big chummy banquet is prepared by the ladies for all the boys and men of the community, at which the special features will be fun, music and short talks.

At a special meeting called for that purpose and held recently at Vances Mill, a new district was organized by the association, comprising Sunday schools located in that section of the county traversed by Butts run and Redstone creek, and which were heretofore at considerable disadvantage to reach their district center. The new district will be known as No. 14, which number has been vacant for some time the district formerly known by that number having been merged with the Mill Run district. An organization was effected by the selection of the following officers: President, Rev. A. C. Brown; vice president, Rev. B. E. Myers; secretary, Miss Ruth Wylie, and treasurer, G. D. Ansell. The officers were chosen to serve until the meeting of a regular district convention, which has been called for Saturday, November 22, at Upper Meriden town, at which time a full list, including division and departmental officers will be selected to serve for the ensuing year.

DRESSMAKER GIVES ADVICE

"I underwent a surgical operation for gall stones five years ago, and was in the hospital four weeks. For one year I felt better, but then my old symptoms and pains returned, and I have suffered ever since. Four weeks ago on the advice of a lady I tried Mayr's Wonderful Remedy, and I now feel like a new woman. I have a number of friends who suffer as I did and I am advising all to try this valuable medicine." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money, refunded. A. A. Clarke and druggists everywhere.—Adv.

Pasteurized Margarine

To the People of America

A new Margarine has just been created to take the full place of butter and to cost from a third to a half less.

It is the latest, greatest product of Wm. J. Moxley, founder of the Margarine business in America. The name of this new Margarine is "DIXIE." Here is what we have done.

1st: We have at last created a Margarine with the full butter taste and flavor. [Only a professional butter taster can tell them apart.]

2nd: We have created a Pasteurized Margarine—pasteurized in every ingredient. All of the milk and cream that come to us are supposed to be clarified and pasteurized before they ever leave the milk stations in the country.

But every gallon of that milk and cream—and we use thousands of gallons daily—is re-clarified and re-pasteurized by us, together with every other ingredient, before it is ever allowed to go to our churns. So, in DIXIE, you at last have a product that is absolutely wholesome, absolutely pasteurized, absolutely pure.

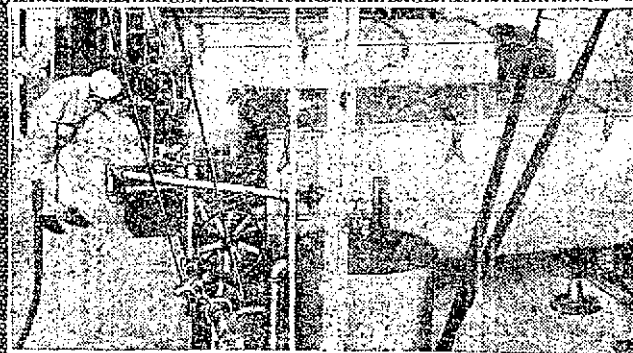

And 3rd: We have created a product that is actually higher in food value than any butter ever made.

Therefore, what we are offering you is a Margarine that is equal to butter in flavor and taste, surer than butter in pasteurization, higher than butter in food value itself and lower than butter in price by a third to a half.

And, finally, you do not have to take our word for these statements. As you read these DIXIE announcements from week to week, you will find the testimony of the Food Experts of America on the Margarine they have already tested and on this new DIXIE Margarine which they are testing now.

*Ask your Family Physician or write to your Health Commissioner and find out how absolutely vital Pasteurization is. Watch for the report a little bit later from the Famous Columbus Laboratories on the Food Value of Dixie.

Below is an actual photograph of one of our great daily shipments of milk and cream and of one of our big Pasteurizers—your guardian of absolute safety and purity. DIXIE is absolutely pure. Buy it and try it and see for yourself.

At the Theatres

THE SOISSON.

"A MAN'S DESIRE"—With Lewis S. Stone in the leading role, is being shown today. This is a drama of the big woods lumber company, packed with tense action and the thrill of primitive life.

The production, which was written by Stone himself, is distributed by Exhibitors Mutual, Robertson-Cole controlling world rights.

Tom Denton's brother was killed by "Bull" Larkin, and his lumber mill blown up by a drunken lumber-hand. When the lumber-jack's mutilated body was found it was mistaken for "Bull," who had put his own clothes on the corpse and escaped.

Tom married Mary Larkin, the unhappy girl whom "Bull" had intimidated into marriage, both believing "Bull" was dead. Months after, "Bull" was wounded in a saloon fight and took refuge in Denton's cabin. Denton, who had never seen "Bull," took care of the wounded man, while Mary's lips were sealed by the horrible situation.

"Bull" repaid Denton's Good Samaritan act by shooting him in the back and taking Mary away with him.

How Denton, who had learned the truth, trailed "Bull" and Mary and paid the score, rescuing Mary, makes a thrilling climax to a great story.

Monday and Tuesday Constance Talmadge will be featured in "A Temperamental Wife."

Nazimova will be presented soon in "The Strat," her latest success.

THE PARAMOUNT.

"A WHITE MAN'S CHANCE"—An interesting production featuring Warren J. Kerrigan, a feature attraction today. The picture is in five acts and provides for Mr. Kerrigan one of the best roles in his screen career. He is supported by a cast of prominent screen players. A selected comedy is also being shown.

PENNSYLVANIA'S WAR LOANS AND TAXES MORE THAN CIVIL WAR COSTS

Exceed North's Expenditures During the Four Years' Struggle By \$600,000,000.

Special to The Courier.

PHILADELPHIA, Oct. 30.—Pennsylvania's war loans and war taxes in the two years of America's participation in the world war were greater by about \$600,000,000 than the total cost to the North of financing the entire four years of the Civil War.

The Pennsylvania War History Commission made this announcement today. The comparison between the gigantic financial contributions of this commonwealth to the nation at war and the cost in dollars and cents of the American Civil War is made as a stimulant to the interest of Pennsylvanians in State History Week, November 9 to 15, when the people of Pennsylvania are asked to fortify the state records of the future by contributing the civilian and service achievements of 1917 and 1918 to the commission's files.

The Keystone Commonwealth, the figures on hand at present show, subscribed to \$2,799,947,800 worth of Liberty and Victory bonds. The North, from 1861 to 1865, floated loans totaling \$2,319,678,000. In other words, Pennsylvania in two years raised \$58,031,014 more in bonds than the entire North did in four years.

The Union, between 1861 and 1865, paid into the United States treasury taxes totalling \$667,163,247. Pennsylvania, for 1917 alone, paid \$589,056,143.20. The 1918 taxes, which are being paid in four installments, the last one this December, will reach the \$600,000,000 mark. The combined Pennsylvania taxes for 1917 and 1918 will exceed the Civil War taxes of the Union by approximately \$312,000,000, which added to the \$288,000,000 increase in war loans, makes a \$600,000,000 total.

Over-Worked Men

The Strenuous Life We Are Living Uses Up Our Vital Forces Faster Than Nature Can Replace Them.

To overdo anything is harmful and a continuation of it will wear out the strongest man. Overwork, worry, brain-tire, high living, dissipation and other such habits waste away the most vital elements of the blood, brain and nerves—then disease sets in. At first there will be a general indisposition, poor appetite, indigestion, severe headache, wakefulness and weakness in the back, the temper irritable, the spirits depressed, the memory poor and the mind weakened, ending in premature decline. Dr. Chase's Blood and Nerve Tablets correct this condition by building up your blood and nerve forces. A trial will convince you. TREMENDOUS CROWD EXPECTED WHEN PITT AND W. & J. CLASH

Red and Black Has the Edge, According to the Dope, But Pitt is Not Bitten Yet.

PITTSBURGH, Oct. 31.—The University of Pittsburgh-W. & J. football game, scheduled for Saturday, November 8, is attracting the attention of all Western Pennsylvania fans and it is predicted that the crowd that will go to Forbes Field that day will be the largest that ever witnessed an athletic event in the steel city. The advance sale to Pitt and W. & J. alumni has broken all records and for the public sale, which starts Monday at the local agencies, it is expected that the would-be ticket purchasers will be strung up for several blocks.

Although on comparative scores W. & J. seems to have the edge on Pitt, the Panthers will go in to win. They have routed the Red and Black four consecutive times and think they have a fighting chance to make it five straight this year. Pitt lost to Syracuse by a one-sided score, while W. & J. beat the Orange, but everybody who knows football realizes that it is impossible to "dope out" games by comparative scores. When the Panthers and Presidents meet, it is a case of the team winning which has the plays and has the most fight, and with the Panthers pointed for this game above all others spectators can look for a history-making battle.

Practically the entire adult population of Washington county will be here for the game. Graduate Manager John Murdoch of W. & J. has secured 6,000 tickets in the W. & J. stands and expects to sell them all. The Pitt-W. & J. game here is talked of from year to year at Washington and with the Red and Black conceded the edge this year interest is at the red hot stage. A delegation of at least 500 is coming from Scottsdale to cheer for Captain Elmer Carroll of W. & J., who hails from that town. The Scottsdale folks will come in on a special train over the Pennsylvania and will have a band along.

A Worcester, Mass. doctor has suggested the following simple, harmless and inexpensive home treatment for bronchial asthma, chronic bronchitis and coughs and colds which threaten to affect the lungs.

STOPS PAIN MUSTARINE CANNOT BLISTER

DRESSMAKER SAVED FROM OPERATION

By Taking Lydia E. Pinkham's Vegetable Compound in Time.

Ithaca, N.Y.—"Three years ago I suffered from pains in my right side, so severe that I could not raise my feet from the floor. Pains would shoot down my limbs and through my back, and the doctor said I had an abscess. I was in bed two weeks with an abscess on my side and expected any day that I might have to go to a hospital for an operation. A friend came to see me and told me of your wonderful medicine—Lydia E. Pinkham's Vegetable Compound. I began taking it, and after taking six bottles I feel well and strong, do my own work and do dressmaking for others. I cannot speak too highly of your medicine and recommend it to others who suffer with female trouble. It is a Godsend to ailing women, and you may use my name at any time."—Mrs. PERMILLA HULSEZIER, 218 E. Fall St., Ithaca, N.Y.

Women who suffer from any such ailments should not fail to try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound.

Public Health Nurse Miss Edna Klinger Takes Important Post With the Red Cross.

The Fayette County Chapter of the American Red Cross has just employed Miss Edna Klinger as its public health nurse. Miss Klinger is a graduate of the Mt. Pleasant Memorial hospital and has had nearly 12 years nursing experience. She is a trained public health nurse and had experience in this line with the Metropolitan Life Insurance company and as health officer for Uniontown.

She enrolled with the Red Cross shortly after the United States entered the war and served 16 months with the Army Nurse Corps. Miss Klinger is now living in Latrobe but she expects to make Uniontown her home on assuming her new duties which will be November 1st. This week Miss Klinger will take a special Red Cross course in Pittsburgh which is being given for instructors of classes in home hygiene and care of the sick, and for the time being she will act as an instructor for the chapter as well as doing public health nursing. Miss Klinger's services will be available in all territories coming under the jurisdiction of the Fayette County Chapter.

It is expected this branch of Red Cross activity will grow rapidly and that additional nurses will soon be needed but it is not the intention of the Red Cross to assume the duties or work of any existing agencies but only to work with and assist them and the Red Cross nurse will always work under a doctor's supervision and instructions.

RAILWAY EMPLOYEES WILL NOT OBSERVE ANTI-STRIKE LAWS

Head of Locomotive Firemen and Enginemen Emphatically Declares

GIVE RADICALS AN EXCUSE

For Precipitating "Direct Action," Which the Extremists Desire; Must Be a Raise in Wages if Living Cost Is Not Soon Brought to Lower Level

Timothy Shea has given notice to Congress that the Brotherhood of Locomotive Firemen and Enginemen, of which he is acting president, would not observe pending anti-strike legislation if enacted into law.

Such an attempt to "fight out" railroad employees and deprive them of what he termed the economic right of workers to strike to prevent injustice must be accepted. He said in connection with other information which the railroad brotherhoods have as a foregone conclusion that the railroads contemplate a general reduction in wages when the government surrenders control and desire such a measure to forestall a strike.

"If the interests of the legislators believe railroad employees will not resistingly submit to any such invasion of their rights as citizens," Mr. Shea continued, "they had better expect that thought from their minds; because I believe I speak for locomotive firemen and engineers at least when I say that any law which deprives them of the rights of American citizenship would not be observed, not because this class of American citizens are law breakers, but because such a law would be unwarranted, un-American and contrary to American institutions."

Mr. Shea said such a law was almost certain to precipitate revolution and was in fact just what extreme radicals and revolutionary aspirants desire. "This would give them logical argument for direct action," he asserted, "with the intention of displacing the liberal and more conservative leaders and thereby overthrowing the existing social, political and industrial institutions of the country."

"If an anti-strike law is enacted, the responsibility for any upheaval which might follow lies with Congress."

Railroad men are waiting the outcome of the government's campaign against high prices, said Mr. Shea, adding that if the cost of living is not reduced, then they expect sufficient advance in wages to enable them to maintain their standard of living. He declared firemen were running in debt from \$5 to \$50 a month because their wages increases have not kept pace with mounting prices.

Time and a half for overtime work was declared to be necessary to give the men a real eight-hour day, which he declared they have never enjoyed despite the passage of the Adamson law. Without punitive overtime, he said, the railroads would continue to work the men as long as ever before.

IF THIN AND NERVOUS, TRY PHOSPHATE

A French scientist has discovered an organic phosphate which should be a very effective remedy for weak nerves, sleeplessness, thinness and lack of strength, energy and vigor. The substance is described by specialists as identical in composition with certain vital elements naturally found in brain and nerve cells and one which when taken into the human system is quickly converted into healthy living tissue.

This phosphate is already widely known among druggists in this country as Eutro-Phosphate and some physicians claim that through its use strength, energy, vigor and nerve force are frequently increased in two weeks' time. Dr. Frederick Kelle, Editor of New York Physicians "Who's Who," says it should be prescribed by every doctor, and used in every hospital in the United States. As there are a great variety of so-called phosphates, those who wish to test this substance should be sure to get the genuine "Eutro-Phosphate."—Adv.

Diamond Cut Diamond

By JANE BUNKER

Copyright by the Bobbs-Merrill Company.

"Ze chain of evidence is perfect!" he cried, pulling the elastic and broke with a sharp report.

The sound went through me like a pistol-shot. I jumped out of my chair and exclaimed, "Oh!" and fell back again. I had heard the pens rattle. I thought, "Suppose he opens it—suppose he drops it! Heavens! What shall I do? How shall I get it out of his hands and not betray myself?" It took about a second for these words to flash through me, and before I had decided—or had need to decide—he exclaimed: "Pardon me, madame—did I frighten you?" and laid the box back on the table.

For a moment I was unable to speak. The tension of those few seconds, while he actually held the diamonds in his hands, had paralyzed me.

I realized that I was pressing my hand to my heart! I stopped that and stammered, "Yes—yes, I am a little nervous."

He waited a moment for me to recover my self-possession and then went on briskly:

"Madame, I wish to say immediately—before we proceed another step—that I appreciate your position. It is most difficult—most difficult for a lady such as yourself. You are a friend of Madame Delario, is it not?"

"Yes, I am—and you must realize—" He stopped me. "Oh!—perfectly. And it is as her friend that I approach you now and ask your countenance."

"No, monsieur, you must let me withdraw now from all further connection with the case. I have done all I can—I truly have."

"I know—I appreciate," he cut in. "Now attend, madame, to my argument. Five things must be considered."

He checked them off on his fingers. "First, she confesses she has these diamonds and will return them to the rightful owner. Second, madame will deny absolutely that she has ever seen these diamonds. It may be true—but it may not be—ze point is, zat she denies all knowledge. You and Monsieur Rivers have already told me ze difficulty I meet here—it she have find them and deny it. Or, she—she confesses to you everything about ze finding of these diamonds, but—you are her friend—she induces you not to betray her secret—you promise her you will not. A most difficult position for you, madame, if zat last is ze case, is it not?"

"Decidedly," I remarked dryly.

"Out. And now I beg you to appreciate zis evidence of my esteem for yourself—I wish to spare you all possible humiliation, and yet to retain your cooperation with me."

"Madame, if these diamonds are not in my possession in two hours from now, Monsieur Eugene will be arrested and go to prison, and his stay here—as ze crime is a great one—fixed at one hundred thousand dollars and his nuzzler is unable to give it. Madame, if you are her friend, you can save her now. I give you two hours in which to bring me these diamonds."

And the diamonds lay on my table beside him! I had only to reach out my hand and say, "Here," and the matter was settled. Yet something in me kept saying, "No—no—no—you mustn't!"

I said nothing and monsieur repeated, "If in two hours these diamonds are not in my hands I will have her arrested," and I sat there looking at the box and thinking that in two seconds—if I so willed it—the diamonds would be in his hands!

No—I dared not do it without at least exacting some promise that should prevent their use in the treaty with Mexico—it would be treachery to my country, comrades. We had two hours—we could do something in that time—we'd not, the three of us, give up without a struggle.

"Well?" he asked.

"But just what do you wish me to do?" I asked, finding my tongue again. "I don't seem to be clear on it."

"I have been telling you," he showed signs of impatience. "I wish you to call upon her immediately—she is at home, for my daughter is wis here—be soiled at that, remembering how he'd used Claire to blackmail Billy and me the night before. "Repeat zis interview zat you have wis me—convinces her zat I am ready to have her son put under arrest"—he drew forward to the edge of his chair and continued in the tone of one addressing a partner—"I assure you zat when you have communicate zis wis her, she does one of two things: If she have already confessed to you she have ze diamonds, she releases you instantly from ze obligation to keep her secret; and if she have not already confessed all to you, she does not—she is obliged to do so to protect herself—to ask advice of a friend who comes to warn her."

By this time I had perceived that my one feasible line of action lay in

pretending to fail in with his plans, thus gaining time to which to consult Billy as well as Mrs. Delario, and I said smoothly:

"I appreciate the delicacy with which you have put the case to me and relieved me of the necessity of talking to you about my friend—I can't tell you how I appreciate it—and there I stuck!"

"What did I mean to do?—tell him I'd go? And if I did, as I take the diamonds or leave them behind in the house? At that instant of indecision and perplexity my eye lighted upon the note sent up by my recent mysterious caller—the supposed detective. My counter-move! I drew it from the envelope and with it I made a fresh start in conversation.

"I appreciate it so much that I treat you with a corresponding confidence

Now Was My Chance.

and I ask you to explain one or two little matters so that I may avoid any difficulties that may arise while I'm discussing the matter with Mrs. Delario."

"His pleasure—anytime—" "Well, this—I should like an explanation of this note."

I put it in his hand. He read it, frowned, turned it over to see if there were anything on the other side and still, frowning said, "Zis note? I know nothing of zis note."

And he read aloud—"Mademoiselle Claire de Ravenol has disappeared—except so far she has disappeared zis morning in Madame Delario's house."

His words and manner to my mind at once disposed of the hypothesis that the new man was monsieur's accomplice; but I went on: "The man who sent this up—and whom I saw—claimed to be a detective in your employ."

Monsieur gave a start. "A detective—in my employ—looks for my daughter! Impossible! When do you receive zis note?"

"About two hours ago!"

"A detective—two hours ago tells you I employ him to seek for my daughter! What does it mean? I have employ no one to seek for my daughter—no one. He tells you an untruth. What have you sought is his object to tell you zat he seeks my daughter?"

"I thought it was a plot against her."

"A plot against Claire! Mon Dieu! Zis I am not prepared for."

He was too genuinely shocked and astonished for me to doubt his word and I went on, "Yes—and Mrs. Delario thought so, too—and Mr. Rivers, they both saw the note and thought it was a plot against Claire. The same man was at her house last night looking for Claire just after you had left to go to the hotel for her. Perhaps her fathering here actually saved her from him."

I added, quite keen on the dramatic side of it all and feeling that it was an excellent counter-irritant to diamonds.

"Mon Dieu! What kind of a plot? And who—Mon Dieu!"

Instantly I saw my chance and used it: Mrs. Delario still had the whip-handle end of the situation; she had his daughter in her keeping while he was talking about arresting her son!

"Mrs. Delario and I both thought," I said firmly, "that there is a plot on foot to kidnap Claire and hold her for ransom. It could be done."

He shrank as if he'd been struck a blow.

"That is what Mrs. Delario came to see me about this morning," I cried, pushing my advantage as fast as I could. "She is frightened—she believes something is going to happen—and with you in California—"

"I am not in California," he put in hastily. "But it was necessary and I made some adequate reason, why I gave my daughter wis her for day or two—a few hours, only, I had expected—"

COKE TRADE VERY SENSITIVE TO VARIOUS INFLUENCING FACTORS

Every Change Finds Quick Reflex in Price and Demand.

COAL STRIKE SITUATION

At Present the Biggest Element; The Attitude of the Government Has a Quieting Effect But Miners' Action Yesterday May Bring New Crisis.

From The Weekly Courier

Due to the delicate balance which has been maintained between production and consumptive demand the coke trade of the Connelville region was never more sensitive to the various factors than at present. Every change in conditions which may have even a remote relation to the trade finds almost instant reflex but more readily in the matter of price and demand than in production.

Thus when the dire threats of the organized mine labor leaders last week threw the country into alarm at the prospect of a paralysis of industry at the very beginning of the winter season there was almost feverish activity among consumers to provide as best they could against the contingencies of a coal strike either through procuring more coke or more coal, or as much of both as was obtainable. Coke prices bounded upward through a total range of \$1.00 per ton buying was eager and the region was quickly stripped of what little surplus supplies there were available. This condition was gradually changed, however, as the events of the present week made it more apparent that the threatened industrial tragedy will not be permitted to take place, but yesterday's action may reverse all this.

Beginning with the announcement of the government's determination to use all the force strength and power that might be necessary to prevent the stoppage of coal production which at times has been backed up by state governments and wide-spread public opinion, there has been a decided change in the situation until it appeared reasonably certain that the strike would not take place as scheduled. This development has quickly produced an effect upon both the coal and coke trade. Although the former has been in good volume the demand is much less active than a few days ago. This is due very largely, if not altogether, to the attitude of Washington with respect to the strike and the confidence in the ability of the government to handle the situation even in face of the refusal of the United Mine Workers executives to call off the strike.

In coke there is no very appreciable decrease in demand due to the fact that there has been less coke available for several weeks than consumers would have willingly taken and in view of the action at Indianapolis yesterday may now be even more anxious to take but meantime there has been a halt in the upward trend of coke prices directly traceable to what, until yesterday, appeared to be more favorable developments in the strike situation. The newly created situation may, however, have quite the opposite effect, dependent almost entirely upon what happens between

now and midnight tomorrow.

In the region coke operation continues without material change. Production last week was but 1,200 tons less but coal output made up the deficiency to such extent that the gross outgoing tonnage of fuel was virtually the same as during the preceding week. The furnace ovens produced somewhat less coke but the merchant ovens gained very nearly as much as the former lost.

The demand for coal which the possibility of a strike had stimulated having brought about an order giving coal cars preference over other cars for bulk traffic a very pronounced shortage of coke cars developed at the end of the week. This was measurably overcome on Monday and Tuesday but yesterday there was a decided falling off in supply. Coal cars are ample to meet the needs of the lessened demand.

The estimated production of coke last week was 208,130 tons, contributed by the two districts as follows: Connelville 120,470, a decrease of 2,900 tons; Lower Connelville, 87,660, an increase of 1,585 tons, or a net decrease of 1,315 tons.

By interests the production was 115,610 a decrease of 6,890 tons; merchant 87,520 an increase of 5,775 tons. Shipments exceeded production by approximately 1,500 tons represented by the difference between the stock laid down upon the yards and that lifted for outgoing loads thus the coke going to consumers was virtually the same in quantity as during the previous week.

There were 116 ovens added to the producing list, 60 at plants of the furnace interests and 56 at the merchant plants.
